

Marketing Research Project Director / Analyst - Part time

Job Responsibilities

Responsibilities include coordinating activities to initiate and complete marketing research projects such as project management, questionnaire development, supervision of coding and editing, data analysis, graphic presentations, and report preparation and production. May also involve assistance with bidding and proposal development. Opportunity to advance to account development efforts.

Requirements

Previous marketing research experience desirable. Compensation commensurate with experience. Marketing, Social Science, or other quantitative degree also desirable. Ideal candidate will have familiarity with a broad array of data collection and analytical techniques. Part time positions require home computer with Microsoft Office and home fax machine, and a desire to master telecommuting skills in a new millennium "virtual office" environment with little time in Centrac's physical office required.

Originally part of the Centrac family of marketing research companies, founded in 1971, Centrac DC is one of the country's Leading Marketing Research Companies. Our national client base includes a broad spectrum of Fortune 500 and other companies. We offer competitive compensation and benefits packages commensurate with experience. We offer flexible hours – with no nights or weekends required.
